

We are proud to announce the second annual Sanofi Genzyme TORCH Awards! The TORCH Awards are your opportunity to recognize individuals of all ages who have made a significant contribution to the Lysosomal Storage Disorder (LSD) community.

The nomination process is simple. To nominate, you will be asked to submit your answer to the following question:

“Please explain how the nominee has made a significant contribution to the LSD community in one or more of the following ways: educating, empowering, advancing or connecting patients with information, resources or each other. What has been the impact of their contribution?”

People of all ages can be nominated! Examples include a young student teaching his class about what LSDs are, a local fundraiser, or a parent working to make changes in legislation.

Scholarship America will review the nominations and award up to four nominees. These recipients will be recognized by Sanofi Genzyme on Rare Disease Day, February 28th, 2018. Sanofi Genzyme will also contribute \$5,000 to the nonprofit organization of each recipient’s choosing, subject to certain conditions.

Nominations: Nominations are accepted from both internal Sanofi Genzyme employees as well as externally.

Eligibility Requirements: Nominees of all ages are welcome, including children. Self-nominations are encouraged, but all nominators must be age 13 and over. Sanofi Genzyme employees, former employees and relatives of Sanofi Genzyme employees are ineligible to receive the award.

To submit your nominations, please click [here](#), where you will also find more information about the program.

Please note changes to the nomination website from last year:

- There is no longer a cap on the number of nominations you are permitted to submit, so you can nominate as many nominees as you would like.
- Your nomination essay will need to be uploaded to the nomination website. The site will only accept PDF, JPG, or PNG files no larger than 2 MB. PDF files are preferred.
- You will be able to enter nominee information, upload supporting documentation and save your work to go back at a later time. Once you submit your nominations, you will not be able to submit any more nominations under your login. If you want to nominate someone else after you have submitted, you will need to re-register with a different email address. We strongly

recommend that you wait to submit nominations until you have all your potential nominees ready for submission.

- When you're ready to nominate, click 'Register to Apply' within the site.

If you have any questions, please reach out to Kim Lehner at Kimberley.Lehner@Sanofi.com.

We look forward to recognizing the impact these contributions have made within the LSD community and thank you for your nominations!

Sanofi Genzyme TORCH Committee: Marleni Arvelo-Saillant, Kim Lehner, Abbe Golding and Kristina Woessner
