

Living with Fabry Disease?

We NEED You!

EMORY
UNIVERSITY

Looking for ALL
that have been
diagnosed with
FABRY Disease

What the study is about:

- We are using a cutting-edge facial recognition software to analyze the many faces of those with Fabry to see if we can see any similarities or differences based on gene changes and other factors
- We also want to see if treatment can affect people in a fashion that can be seen among facial features by looking at photos of those diagnosed with Fabry disease

Who can participate:

- Those who have been genetically diagnosed with Fabry disease

Participation:

- Complete an online survey
- Upload a few photos
- We will compensate \$5 for finishing these tasks
